

ANKIT KUMAR

AI & DATA SCIENCE STUDENT | DATA ANALYST | MACHINE LEARNING ENTHUSIAST

9508064542 | ankitjha7425@gmail.com | B.Tech AI & Data Science (2024–2028)

PROFESSIONAL SUMMARY

B.Tech student specializing in Artificial Intelligence & Data Science with hands-on experience in Python, SQL, Pandas, NumPy, Advanced Excel, and Power BI. Interested in building practical AI and data-driven solutions. Have worked on RAG-based AI agents, text-to-audio applications, web content summarization, data analysis, and interactive dashboards. Looking for an internship where I can apply my skills, learn from an experienced team, and contribute to real-world products.

TECHNICAL SKILLS

Analytics & BI	Advanced Excel, Power BI, Data Visualization, MIS Reporting
Programming & Data	Python, SQL, Pandas, NumPy
AI & Machine Learning	Machine Learning, RAG, AI Agents, Text-to-Speech, Web Scraping, Text Summarization
Data Analytics	Data Cleaning, Data Transformation, Exploratory Data Analysis, Statistical Analysis, Data Visualization
Excel Tools	Pivot Tables, Pivot Charts, Power Query, XLOOKUP, Slicers, Conditional Formatting, Advanced Formulas

PROJECT EXPERIENCE

RAG-Based AI Agent | Python

- Built an AI agent that retrieves relevant information before generating a response.
- Worked on the retrieval and generation flow to provide more grounded answers to knowledge-based queries.

Text-to-Audio Application | Python

- Built a Python application that converts written text into audio.
- Created an end-to-end workflow for processing text and generating spoken output.

Web Content Summarizer | Python

- Developed a Python-based web scraping application to extract and process web content.
- Implemented automated content summarization to convert extracted information into concise summaries.
- Worked on content extraction, processing, and automated summarization.

Teen Mental Health Analysis Dashboard | Power BI

- Built an interactive Power BI dashboard using a dataset of 1,500 teens to analyze mental health trends.
- Transformed raw data into meaningful visualizations and generated actionable insights through interactive reporting.
- Transformed raw data into clear visualizations and interactive reports to identify useful patterns.

Sales Performance Dashboard | Advanced Excel

- Developed an interactive sales dashboard to analyze and monitor revenue, profit, regional sales, and customer trends.
- Leveraged Pivot Tables, Pivot Charts, Power Query, XLOOKUP, slicers, conditional formatting, and advanced formulas.
- Automated reporting processes and streamlined performance analysis to improve business insight generation.

Teen Mental Health Data Analysis | Python, Pandas & NumPy

- Cleaned, processed, and transformed raw datasets using Python, Pandas, and NumPy.
- Performed statistical analysis and data visualization to identify trends and extract actionable insights.
- Applied data transformation techniques to improve data quality and analysis readiness.

EDUCATION

B.Tech in Artificial Intelligence & Data Science Sagar Institute of Research and Technology – Excellence | 2024–2028
CBSE Class XII – 68% | 2023 • CBSE Class X – 91.8% | 2021

CORE STRENGTHS

Data Analysis • Dashboard Development • Data Cleaning • Data Visualization • MIS Reporting • Problem Solving • Analytical Thinking • Attention to Detail

ADDITIONAL KEYWORDS

Machine Learning • RAG • AI Agents • Text-to-Speech • Web Scraping • Text Summarization • Exploratory Data Analysis • Statistical Analysis • Dashboard Development • Automated Reporting
